THIRTY-FIRST YEAR NO. 20.

CEDARVILLE, OHIO, FRIDAY, MAY, 18, 1908.

PRICE \$1.00 A YEAR.

J. H. Andrew and Judas Wright in the Limelight.

Drugstore political methods received a black eye at a meeting of the Board of Trade, Thursday evening. For some days false and slanderous reports have been circulated as to the use of money in the electric light election.

Dr. J. O. Stewart, president, called a meeting for that evening, in order that the matter could be given an airing and the truth and falsity of the report proven.

If the town had been scraped from beginning to end no two meaner, more contemptible, unprincipled scoundrels could have been found to circulate such reports than J. H. Andrew and his political pimp, Judas Wright.

President Stewart specially invited both Andrew and Wright to the meeting, the former coming in during the meeting, the latter never showing himself.

Mr. J. R. Orr had informed President Stewart that if the electric light question carried he knew two men who would receive \$300 each. Also that persons were being approached to work for the election and to be paid for their influence. Mr. Orr gave his authority as J. H. Andrew for the former statement and S. C. Wright, the latter.

At the meeting, were the members of the electric light company, the only one that has been mentioned or made a proposition to light the streets, under the Board of Trade plan. These men all deny the report in the most vigorous manner.

O. L. Smith, treasurer of the company, knew nothing of the charge other than what he had read in a local newspaper but that the company would offer a reward for information that would prove the report true.

W. J. Tarbox referred to a statement in the gang organ concerning the light question and that people would be foolish to entertain a thought of such charges. As to the \$300 each for two men, he wanted to know who the two

no assurance that it will get the contract as council must advertise for bids, so the statement was absurd. In fact he did not think that council could be charged with having connection with the case and that the report was a lie on the face of it.

Dr. M. I. Marsh knew nothing of the report or the truth of it. In fact he denied that the company as far as he knew had ever made any such offer.

L. H. Sullenberger expressed himself in about the same manner other than he had an idea where the report originated, but gave it no credit.

A motion was put to appoint a committee to investigate and the chair appointed R. C. Watt, A. Bradford and Dr. J. W. Dixon. While this matter was being carried Mr. Andrew entered the room.

President Stewart recited the reasons of the meeting for Mr. Andrew's benefit and stated the story as related by Mr. Orr. Mr. Andrew admitted that he had told Mr. Orr. After being held close to the statement and questioned closely, Mr. Andrew wanted to back track and make it rumor and common street talk. As the committee had been named Mr. Andrew wanted it to investigate and he thought more would be found out than was known at present. The meeting made strong demands for information and Mr. Andrew would not accept the statements of the members of the company other than under oath. This the members readily agreed to.

As E. G. Lowry and G. F. Siegler were not present, both were sent for. Mr. W. J. Tarbox was dispatched for Mr. Orr. A recess was taken to get the sworn statements of the company. While this was being done the yellow evident appeared on Andrew's back and finding himself caught in his own game, slipped out of the room. Later officer Kennon was sent after him but he refused to return.

The following is the statement signed and sworn to by the members of the company:

"A statement having been made by J. H. Andrew to J. R. Orr that if the electric light election carried, he knew two men who would receive \$300 each, there being no other company considered in the proposition so far, now comes to the Cedarville Light & Power Company through its corporate members and officers, swear and affirm that the above report is false in every particular.

G. F. Siegler, President.
E. G. Lowry.
L. H. Sullenberger.
O. L. Smith.
W. J. Tarbox.
M. I. Marsh.

Signed, acknowledged and sworn to before me, this 7th day of May, A. D. 1908. J. H. Wolford, Mayor.

Adjournment was taken until the next regular meeting, Wednesday, May 13, at which time the committee is expected to report as to the statement made by Mr. Wright.

COUNCIL ORDERS NEW FIRE HOSE.

Council met in regular session Monday evening, all members being present. The main topic of the evening was the purchase of a new fire hose.

At a former meeting of council L. G. Bull of the fire committee and Engineer Kennon were instructed to test the hose. This matter was brought to council's attention by the fire company after a small fire some weeks ago when a stable was burned. At that time it was almost impossible to get pressure enough to raise the water over a story and one-half dwelling. The hose leaked and burst in so many places that the fire company deemed it advisable to ask council for a new hose.

At the test were the chief of the fire department, Wm. Collier with several members of the company and T. A. Burke, of Columbus representing the Fabric Hose Company.

It was found that about 750 feet of fire hose was unsafe for high water pressure in case of a dangerous fire. Of the hose on hand the only part that stood the test was the lot purchased about twenty years ago. All that has been purchased since then was found in bad condition. The hose standing the test was made by the Fabric Hose Company, which was the best recommendation the company could have. While this hose costs more than the ordinary kind it has proven the cheapest in the long run. Mr. Burke stated that he had sold Cincinnati already this year over 4,000 feet.

After some discussion on the financial question, it was found that there was enough money in the safety fund to pay for half, Mr. Burke giving time for the balance. It was thought by some that cisterns should be provided also. Mr. Irvin suggested the purchase of 1,000 feet. Council then decided to purchase 500 feet at ninety-five cents per foot. The old hose purchased twenty years ago cost ninety cents per foot. A concession of five cents per foot was made by using the old couplings. A communication was read from

the company to extend its lines to its residence without additional cost on his part. At present the company can be compelled to lay but 100 feet of pipe and the remainder must be paid for by the consumer. As it is nearly 500 feet Mr. Orr is put to extra expense to which he objects. The former council evidently overlooked such a clause in the franchise. He also wants better crossings in his part of town and stated that he had appealed to former council for relief but nothing has ever been done. Mr. Orr was present and stated to council that unless some action was taken he would ask to be stricken from the corporation tax duplicate. However he does not want to leave the corporation. The street committee was instructed to investigate.

A letter was read from J. C. Foley stating that his time as village solicitor had expired and that he would like to have the place again. He asked the support of council. Mayor Wolford has the appointment. At the first of the year no money was appropriated for this office. Mr. Foley has two bills in now and no money to pay them.

Bills, to the amount of \$494.00, were allowed. The street committee has been making many necessary repairs on the streets and the service fund has been overdrawn by \$129.27. A resolution was passed authorizing a certificate of indebtedness of \$200, same to fall due October 6.

The street commissioner reported numerous repairs on the streets and a total of 180 loads of crushed stone has been used. More work has been done on the streets the past two months than in that many years.

Council adjourned to meet May 19, just after the electric light election.

ANOTHER PETITION.

A new movement has been started, one that will attract some attention, owing to the novelty of it. Some time ago a disgruntled politician sought to have the corporation charter given up and the village thrown into the township on the plea of a lower tax rate.

Mr. George H. Smith, who was appeared with a petition and has been seeking signatures with little success. Mr. Smith, having had more or less experience in carrying petitions, particularly the school house paper, is familiar with the situation.

When the petition is filed the Herald will publish the list of signers. The public attention is invited to the filing of this document. There is one feature of the village being thrown into the township and that is the farmers and land owners in the township will be compelled to help pay the village expense.

INSPECTED DRUGSTORE.

It was reported here Thursday that the W. C. T. U. of Jamestown had caused considerable excitement in that place this week by the ladies of that organization making a call on the drugstore as to the violation in liquor selling. As druggists are required to keep a record of all prescriptions filled the ladies made an investigation. It is claimed that one physician has many prescriptions charged to him, which makes things look suspicious.

While the ladies were busy at one drugstore, the other heard of movement and having closed his place. He could not be found when his place was visited and another call may be necessary on the part of the W. C. T. U.

If every shoe buyer in this town and vicinity could realize the care taken by Mr. Nisley, Springfield's Arcade shoe merchant, to select footwear that is up-to-date in style and leathers, and absolutely reliable in material and workmanship, they would appreciate the advantages of buying all their shoes at his store.

You have a right to expect of them a full dollar's worth for every hundred cents you spend there. It is their increasing effort to give you more than this full measure value and in buying for their stock they grasp every opportunity that will result for your benefit.

You can prove this statement by calling at the store the next time you are in Springfield and examining their big treasure room stock of men's, women's and children's shoes and extras. Don't forget the place.

SUGGESTIONS ON COUNTY OPTION.

A successful campaign under the county option law is only possible only when painstaking preparation has been made. The county option law is only possible only when painstaking preparation has been made.

Arrange for a conference through a call of representatives of the County Ministerial Association, the W. C. T. U., Catholic Total Abstinence Society, the Young People's Societies, Sunday School Association, or any other organization ready to affiliate in such a movement. If for any good reason any representative of the organization should not sign the call, use only those who will create confidence in the movement. Have the call for the conference extend to the pastors of each church in the county and to at least one layman from the church and to representatives of each organization which the committee thinks will co-operate. Have representation, as far as possible, from each precinct in the county.

At this county conference the first matter will be to decide whether an election should be called and at what time. The conference should then proceed to the organization of the county central committee, composed of as far as possible of representatives of each municipality and township in the county. The county central committee should, in turn select an executive committee of from three to five to take charge more in detail of the management of the campaign. The conference should, also, select a chairman, vice chairman, secretary and treasurer. The present should be an ex-officio member of the executive committee. The executive committee should then proceed to complete the county central committee by securing representation from each village, township and precinct in the county. At least the head of each village and township committee should be a member of the county central committee. The executive committee should keep in touch with the head of each village, township and precinct committee.

The executive committee should organize the following sub-committees for campaign work: As a rule, the ministers will be the best men on this committee; or, at least, most of them should be ministers. Speakers should be selected who will present the different phases of the liquor question because of their knowledge or special fitness to discuss the question. The speech that does not get a vote ought not to be made. This should be the controlling principle in the choice of speakers.

The officers of the Anti-Saloon League will be at the service of this committee, so far as they have time and through the district superintendent of the league the committee can secure a list of a large number of outside speakers who can be secured at reasonable rates.

The press and literature committee should edit everything that goes into the public press and all literature to be distributed. The indiscriminate distribution of literature is a waste of money and energy. The liquor forces have organized national and state committees and are flooding the country with literature. The league will have up-to-date literature to meet the argument which they present.

The finance committee should have a free course to raise money. The campaigns will cost according to the conditions to be met. Slinging campaigns never win. Money should be pledged in advance payable on demand.

An election and petition committee should secure a complete list of the voters of the county. This can be done only by personal canvass through the local committees of every street and every house. This list is the basis of all personal work. The chairman of each municipality or township organization should secure a complete list of voters for the territory which he is to organize. This list should then be classified by the local committee into those that are dry, wet and doubtful. A copy of the list should then be sent the county chairman or executive committee. This list should be further used by dividing it into companies of not more than twenty-five, to be turned over to captains or

COUNTY OPTION.

Continued from first page.

officers of the precinct or ward, and he should be made responsible for creating sentiment, and seeing that every one of these men vote. The information secured by the local officer and his lieutenants will necessitate a revision of the list from time to time. This information should be sent to the county committee. The executive committee may want to reach, from time to time, with special literature, the doubtful voters; and, by another class of literature, the friendly voters during the campaign. Have practical politicians on this committee as far as possible. If by any misfortune the campaign gets into wrong hands, through sub-committees or otherwise, either by diplomacy or strenuous means, see that it is changed. You lose more from inefficiency in such management than you will from its resentment.

The election and petition committee, working through the local officers, should arrange for the circulation of petitions as soon as there is enough organization in existence to do the work quickly and effectively. If possible, have the petitions started out on the same day. Through the townships and municipal organizations have a large number of men who will circulate petitions from house to house. Enough workers should be secured before the petitions were started to make possible a complete canvass of the county in less than a week. Where it is possible, report to the county chairman, at the end of the first day, the number of petitioners you have. He can then determine what progress is being made and report to the workers and inspire them for continuing aggressive work. Each solicitor for names to the petition should make it his business to get the name of the petitioner so that he can identify it if necessary. If the sufficiency of the petition is contested thereafter.

Each signer to the petition must have the qualifications of a regular elector. The petition must be signed by a number of qualified electors, equal in number to 35 per cent of the votes cast at the last regular election. No valid petition can be signed before September 1. The petition may be filed with the common pleas judge of the county, or with the commissioners of the county. The judge, or commissioners, are required to order the election in not less than twenty nor more than thirty days from filing of the petition. If they refuse to act, as provided by law, an action in mandamus may be brought to compel them to take action on the petition. The election is held under the Australian ballot law. The ballots are prepared by the county board of deputy supervisors of election. It is the duty of the judge, or commissioners, to call their attention to this, as soon as the date of election is determined. The names of the members of the board of supervisors of election can be secured from the Anti-Saloon League office, or from the secretary of state's report.

The proclamation announcing the election must be posted or published at least ten days before the election takes place. The election will be conducted in all respects as provided by law for the election of county officers, so far as the law is applicable. The law requires the result of the election to be entered upon the records of the proceedings of the commissioners and with the Clerk of the Common Pleas Court. No petitioner can withdraw his name from the petition after it is filed, or add his name after it is filed.

When the petitions have been secured and placed in the hands of the executive committee, or chairman, they should be carefully bound and numbered. If any protest is made against the validity of any signatures, the petition shall be so identified that the person who secured the signature can be reached to give the facts to the judge or commissioners.

Many more than the required number of signatures to the petition should be secured so that there can be no question as to its sufficiency when it is presented. The petition should not be made public until the required number of signatures is obtained and it is filed with the judge or commissioners.

See that the officer who receives the petition records it as "filed" giving the date. A special receipt for the same will be a valuable precaution against delay.

The Anti-Saloon League is not

greatly concerned about the name of the organization, or the exact method used for doing the work. The one point, toward which every effort must be bent, is victory. To secure this, however, the league's fourteen years of experience in Ohio will be of much service. The committee sending out the original call would do well to confer with one of the officers of the Anti-Saloon League, preferably the district superintendent, and he will gladly give his best thought and attention to the work.

Blank forms of petitions, proclamations and other requirements for calling a legal election can be secured through the state or district league office. Up-to-date campaign literature and, in short, the help which will bring victory can be secured easier, and we trust as effectively through the league office as elsewhere.

As these campaigns grow in popularity, we will often face the embarrassment of irresponsible people wanting to take advantage of public meetings, and in other ways to exploit their peculiar views on the temperance question, or to gain some possible political preferment. The speaker or worker who does not make votes should be suppressed. Every energy must be bent in the direction of securing the votes to win at the election.

We would be glad to receive any suggestion or criticism on the above plan of organization. It is not meant as an arbitrary rule of procedure, but we hope it may be helpful in organizing the counties for victory under the new law.

W. B. Wheeler, Superintendent and Attorney for Anti-Saloon League.

TEACHERS ELECTED.

At a meeting of the village Board of Education last Friday night, all the present teachers were re-elected with the exception of Miss Vera Androv, who will be succeeded by Prof. P. P. Foster. Prof. P. M. Reynolds had his salary increased from \$900 to \$1000. Leroy Marshall and Prof. Foster will each receive \$70 per month instead of \$60. Prof. Masterson increased from \$60 to \$65. C. C. Morton, Mrs. Hester Trumbo, Misses Rosa Stormont, Nellie McFarland and Evelyn McGiven, will receive \$50 instead of \$45.

The township board met the same evening and re-elected all the present teachers with the exception of Miss Louette Sterrett. Miss Florence Williamson who has been teaching in the field school was not present. Miss Louette Sterrett was transferred from the Cross Roads school to the field school. Miss Faye Conner takes Miss Smith's district and Miss Fannie Tomkinson will go to the district where Miss Sterrett taught.

One and one-half hours entertainment in moving pictures will be given in Barber's Hall each Friday and Saturday night, beginning tonight. The New Sun Lyscom Bureau of Springfield, one of the largest syndicates in the country will furnish the films. Cedarville people have always liked good moving pictures and the craze will only be greater after a few nights. The company does not rely on anything but electric light, carrying their own gasoline engine and dynamo with them. This means the brightest of pictures. Heretofore the pictures have not been satisfactory owing to poor electric light and not being able to control the current. You will find some interesting subjects in the advertisement elsewhere in this paper.

NOTICE OF APPOINTMENT.

In the Matter of Publication of the Notice in the Estate of James H. McMillan, deceased.

Notice is hereby given that the undersigned has been appointed and duly qualified by the Probate Court of Greene County, Ohio, as administrator of the above named estate. All persons indebted to said estate must make immediate payment; those having claims will present them for settlement.

Mary J. McMillan.

SHERIFF'S SALE.

State of Ohio, Greene County, ss. Pursuant to command of an order of sale in partition issued from the Court of Common Pleas of said county, and to me directed and delivered, I will offer for sale at public auction, at the front door of the court house, in the city of Xenia, in said county, on

Saturday, May 16, A. D. 1908,

at 2 o'clock p. m., the following described lands and tenements, as a whole to wit: Situate in the County of Greene, in the State of Ohio, and in the Township of Cedarville, and bounded and described as follows, viz:—Lying on the waters of Massies' creek, being part of military survey entered in the name of Baylor Hill No 1324, it being a part of the same tract of land conveyed by the administrator of Martin Bawne, deceased, to Stephen Wilson; Beginning for the part hereby conveyed at three small jack oaks in David Anderson's line and running thence with said line north 85 1/2 degrees east 118.0 poles to a stake in William Marshall's line; thence with said line south 4 1/2 degrees east 101 poles to a stake and sassafras; thence south 85 degrees west 118.0 poles to a stake corner to Isaac Wade; thence with said Wade and Joseph Rakestraw line north 4 1/2 degrees West 101 poles to the beginning, containing seventy-five acres.

Also the following real estate, situate in County of Clark, in State of Ohio, and in the township of Greene, and which at one point adjoins the above described real estate, and bounded and described as follows:—Beginning in the line of Albert Sellers a stone corner to David Anderson bears North 1 degree, 55 minutes West, 1.5 poles; thence passing said corner stone and then with the said David Anderson's line North 1 degree 55 minutes West 71.70 poles to a stake in the Clinton and Selma road; thence South 74 degrees 30 minutes East 1.00 poles to a stake; thence South 1 degree 55 minutes East 71.43 poles to a stake; thence South 87 degrees 45 minutes West 1 pole to the beginning, containing 71.50 square poles more or less, the same being used as an entrance from said road to said 75 acre tract.

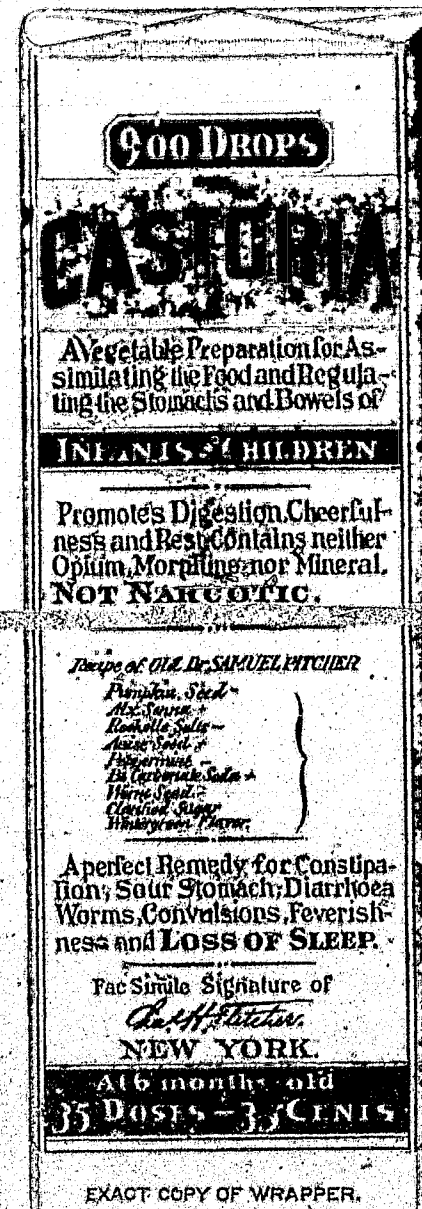

Said premises were appraised as a whole under a former order of this court at \$57.00 per acre.

Terms of Sale:—Cash, 1/3 in one year and 1/3 in two years, deferred payments to be secured by mortgage on premises sold.

To be sold by order of said Court in Case No. 1308 wherein Florence N. Arthur is petitioner and Mary A. Sellers, et al., are defendants.

equal to all demands. Whether it be used on the most modest farm building or the largest manufacturing plant we have always found it true to its trust.

It is made to give service. Every square is thoroughly inspected before leaving the factory. The workmanship is right, and the materials used in its construction are as good as money can buy. As evidence—we can point to Asbestos Roofing applied in the early nineties in good condition to-day.

Furthermore, it requires no coating or painting. "The first cost is the only cost."

Our Booklet "R." Sent free on request, will give you valuable information.

Why Suffer?

If you suffer pain from any cause, Dr. Miles' Anti-Pain Pills will relieve it—and leave no bad after-effects. That's the important thing. Neither do they create a habit. More often the attacks become less frequent, or disappear altogether. Dr. Miles' Anti-Pain Pills have no other effect except to relieve pain and quiet nervous irritation.

"We are never without Dr. Miles' Anti-Pain Pills. My husband and son, aged 15 were always subject to sick headaches until we began using these pills, and they helped us break them up entirely. Don't think they have had to use them for a month. I recommend them to every one. A few weeks ago I heard an old lady friend was sick and in pain. I gave her one of the Anti-Pain Pills and let another for her to take in a short time. They helped her break away, and she says she will never be without them again. Last winter my husband was taken with pleurisy on both sides, and I know he would have died if it hadn't been for the pills. In less than half an hour he was sweating, and went to bed and was cured."

CONDENSED STORIES.
Story of a Police Man Who Eventually Lost His Temper.
President Shonts of the Interborough company of New York said at a recent dinner:
"A public servant does its best to please the public. As time passes its service continually improves. Nevertheless when the public servant happens to be a street railway it is but natural that its cars should be more crowded in the rush than in the idle hours."
Mr. Shonts smiled.
"And crowded cars mean complaints, don't they, the world over?" he said. "I remember once being on a crowded car in Cincinnati."
"A man hung to a strap near me. He was a police man, and, to let

"GIMME MY MONEY BACK!"
people on and off, he kept on the move. Now he ran to the front of the car, now to the rear, now to the middle, wherever there happened to be most space. And it was plain that all this hustling and jostling and rushing to and fro made him angrier and angrier as time went on.
"He restrained his rage till he came to get off. Then all of a sudden it overpowered him."
"He turned to the conductor and yelled, very red in the face:
"Gimme my money back!"
"What for?" said the conductor. "You've had your ride."
"Ride do you call it?" barked the man. "Why, I've walked the whole blessed way!"

Not All in the North.
Stoughton J. Fletcher, who has been rusticated on his stock farm in Tennessee, is in the city for a few days. "A while ago," said Mr. Fletcher, "I entertained the belief that labor troubles were all north of the Ohio river. The other day I was forcibly reminded of my error. I employed a number of colored laborers in hauling gravel and in roadmaking. At half past 7 a delegation of these negroes came to me and refused to go on with the work. "What's the matter?" I asked. "Not shovellers enough," was the answer.
"Well, go ahead and do the shovelling yourselves. Load your own wagons. I'll pay extra."
"They went away, and at 9 o'clock another delegation of negroes came. "What's the grievance now?" I asked.
"We won't work no mo' under a white boss. We want a colored man for that job."
"I told them the white boss would be replaced by a colored man as soon as possible, and they went away. At 10:30 a. m. another delegation of negroes appeared.
"What's up now?" I asked. Then they told me they had struck for more wages and not another spadeful of gravel would be thrown until I came to their figures. This made three strikes before 11 o'clock in the morning. Here the camel's back gave way. I told them that it was my turn at last, that I had struck, and I took the train and came north."--Indianapolis News.

Adventure of the Prince.
King Edward when Prince of Wales was some years ago taking a run through Yorkshire incog. He was, as a matter of course, accompanied by a friend in the capacity of a bodyguard for the corporation of the coming "K."
In the course of a ramble they met a miner with two bull terrier pups, and wishing to appear sociable, Albert Edward asked how much he had paid for them.
"Two quid," bluntly replied the miner.
The prince queried whether two pigs would not have been a better investment for one in his position.
"Appen so," said the miner, "but what bloomin' fool a chap 'ud look goin' raddin' w' two pigs!"--Cleveland Leader.
